In consideration of the mutual benefits to be derived herefrom, the Department and the Grantee do hereby agree as follows:

1. The Grantee does hereby agree to perform in accordance with the terms and conditions set forth in this Agreement, Attachment A (Project Work Plan), and all attachments and exhibits named herein which are attached hereto and incorporated by reference. For purposes of this Agreement, the terms "Contract" and "Agreement" and the terms "Grantee", "Recipient" and "Contractor" are used interchangeably.
2. This Agreement shall begin upon execution by both parties and end no later than November 30, 2009, inclusive.
3.
  - A. As consideration for the services rendered by the Grantee under the terms of this Agreement, the Department shall pay the Grantee on a cost reimbursement basis in an amount not to exceed \$100,000 toward the total project cost estimate of \$200,000. The parties hereto agree that the Grantee is responsible for providing a minimum match of \$100,000 toward the project described in Attachment A.
  - B. The Grantee shall be reimbursed on a cost reimbursement basis for all eligible project costs upon receipt and acceptance of a properly completed Disbursement Request Package (provided as Attachment B). In addition to the Disbursement Request Package, the Grantee must provide from its accounting system, a listing of expenditures charged against this Agreement. The listing shall include, at a minimum, a description of the goods or services purchased, date of the transaction, voucher number, amount paid, and vendor name. All requests for reimbursement of travel expenses shall be in accordance with the travel limits established in Section 112.061, Florida Statutes. The Disbursement Request Package must include:
    - (1) A completed Disbursement Request Form signed by the Grantee's Grant Manager. Such requests must be accompanied by sufficiently itemized summaries of the materials, labor, or services to identify the nature of the work performed; the cost or charges for such work; and the person providing the service or performing the work. If payment is based on an authorized advance for incurred costs, invoices reflecting such costs must be included. After receipt of advance funds the Grantee shall provide proof of payment to the Department within thirty (30) days of receipt of the advance funds. If payment is based on reimbursement, proof of payment of the invoices is required.
    - (2) A certification signed by the Grantee's Grant Manager as to the current estimated cost of the Project; that the materials, labor, or services represented by the invoice have been satisfactorily purchased, performed, or received and applied to the project; that all funds received to date have been applied toward completing the Project; and that under the terms and provisions of the contracts, the Grantee is required to make such payments.

- (3) A certification by the engineer responsible for overseeing construction stating that equipment, materials, labor and services represented by the construction invoices have been satisfactorily invoiced, purchased, or received, and applied to the Project in accordance with construction contract documents; stating that payment is in accordance with construction contract provisions; stating that construction, up to the point of the requisition, is in compliance with the contract documents; and identifying all additions or deletions to the Project which have altered the Project's performance standards, scope, or purpose since the issue of the Department construction permit.
  - (4) Such other certificates or documents by engineers, attorneys, accountants, contractors, or suppliers as may reasonably be required by the Department.
- C. In addition to the invoicing requirements contained in paragraph 3.B. above, the Department will periodically request proof of a transaction (invoice, payroll register, etc.) to evaluate the appropriateness of costs to the Agreement pursuant to State and Federal guidelines (including cost allocation guidelines), as appropriate. This information when requested must be provided within thirty (30) calendar days of such request. The Grantee may also be required to submit a cost allocation plan to the Department in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). All bills for amounts due under this Agreement shall be submitted in detail sufficient for a proper pre-audit and post-audit thereof.
- D. State guidelines for allowable costs can be found in the Department of Financial Services' Reference Guide for State Expenditures at <http://www.fldfs.com/aadir/reference%5Fguide>.

5. Progress Reports (Attachment C) shall be submitted describing the work performed, problems encountered, problem resolution, schedule updates and proposed work for the next reporting period. Progress reports shall be submitted along with the Disbursement Request Package, described in paragraph 3.B. It is understood and agreed by the parties that the term "reporting period" reflects the period of time for which the invoices submitted in the Disbursement Request Package are covered. The Department's Grant Manager shall have ten (10) calendar days to review deliverables submitted by the Grantee.
6. Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, Florida Statutes.
7.
  - A. The Department may terminate this Agreement at any time in the event of the failure of the Grantee to fulfill any of its obligations under this Agreement. Prior to termination, the Department shall provide thirty (30) calendar days written notice of its intent to terminate and shall provide the Grantee an opportunity to consult with the Department regarding the reason(s) for termination.
  - B. The Department may terminate this Agreement for convenience by providing the Grantee with thirty (30) calendar days written notice.
8. **ATTACHMENT A  
GRANT WORK PLAN  
[Local Government]  
LP6**

**Project Title:** Lake Park Stormwater Improvements - Lake Shore Drive

**Project Location:** *Identify the location of the project and include the county/counties involved in the project area. If this project affects water, include the watershed and hydrologic unit code.*

This project is located East of US Highway 1, just west of the Intracoastal Waterway/Lake Worth Lagoon in Lake Park, Palm Beach County, Florida. The Hydrologic Class is III. (Lake Worth Lagoon Plan 12/2007). The limits of the project are from US Highway 1 to the north, to Lake Park Harbor Marina to the south. The project length is approximately 0.7 miles.

**Project Background:** *Provide a summary of the site/project area and the justification supporting the need for the Florida Department of Environmental Protection to fund the proposed project.*

The Intracoastal Waterway and Lake Worth Lagoon are State resources of significant environmental and economic importance and concern. This project addresses the safety and welfare of all residents by minimizing flooding during weather events, and also provides stormwater run-off pre-treatment to minimize silt and pollutant discharge into the Lake Worth Lagoon and Intracoastal Waterway.

Lake Worth Lagoon is on the list of South Florida Water Management District priorities. According to the Drainage Master Plan developed for Lake Park by Barker, Osha & Anderson, Inc., this project area includes drainage basins 1-6, which lie east of US Highway # 1, and west of the Intracoastal. The existing centerline of pavement elevations varies from 3.88 to 5.30 Mean Sea Level (MSL), while the existing inlet grade elevations vary from 2.75 to 3.00 MSL. There are 6 existing outfalls that serve this area, varying in size from 12" to 60" in diameter. The average high tides experienced in this area are approximately 2.25 MSL while the "spring and fall" tides vary from 3.50 to 3.75 MSL. The existing grassed swales are deteriorated and provide very little percolation. During extreme high tides, and also during the average high tides with a design storm event, there is severe flooding in these drainage basins. The southwest corner of the intersection of Jasmine Drive and Lake Shore Drive is not currently served by the drainage system.

**Project Objectives:** *Provide a list of objectives, in bullet format, expected to be achieved as a result of funding/completing this proposed project.*

- Objective 1: Surveying and drainage analysis of existing conditions;
- Objective 2: Engineering & project design;
- Objective 3: Project permitting and approval;
- Objective 4: Approved Bid Specifications and Construction Documents prepared.

**Project Description:** *Provide a detailed description of the work to be performed for the project. Include maps, drawings etc. to support project activities. Project descriptions should include a specific list of tasks/activities for accomplishing the project.*

The work to be performed in this project includes the surveying, geotechnical analysis, drainage analysis, roadway design, drainage design, permitting for the construction related activity, securing sufficient funding to carry out the project, and preparing the construction specifications and bid packages to improve the drainage discharge run-off quality and raise the roadway elevation along Lake Shore Drive.

The project designed as a result of this initial funding is intended to raise the roadway elevation by up to 1.0 foot. The proposed roadway typical section will include sidewalks and bike paths on both sides of the roadway, a multi-use path will be provided on the east side of the roadway, which will tie into the multi-use paths in Lake Shore Park. The sidewalk elevations will be raised in accordance with the roadway improvements, which should improve the quality of life for Lake Park residents because historically, this corridor floods during a normal rain event. All existing driveway and cross street connections will be modified to meet the new roadway elevation..

Drainage will be routed to proposed exfiltration trenches in the adjacent parks (Lake Shore and Kelsey) which are located both east and west of Lake Shore Drive approximately midway along the project corridor. Drainage improvements will be accomplished using a series of new inlets, storm sewer, and pump stations. The current outfall to the Intracoastal will be maintained, however, improvements to the outfalls will include elimination of direct discharge, and installation of flap gates to minimize incidents of tidal water backing up into the drainage system. Roadside swales will be reworked to add more granular material to assist with percolation along the entire coordinator.

A specific list of tasks for completion under this funding package include:

1. Surveys & Geotechnical Analysis
2. Engineering Design & Estimates
3. Permitting – Local, County, State, Federal
4. Approved Bid and Construction Documents are prepared

**Project Milestones/Deliverables/Outputs:** Identify by task/activity (as listed under Project Description), start date, and completion date. Clear cells in table below header row before beginning to add data. Identify outputs/deliverables to result from this project. (Examples include: reports (progress, draft project report, final project report), manuals, videos, maps, BMPs installed, meetings, field days, issued permits, progress reports, quality assurance plans, etc.) Identify dates for providing/completing the outputs/deliverables on a schedule based on the date of agreement execution. #### MONITORING

In addition to reviews of audits conducted in accordance with OMB Circular A-133 and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by Department staff, limited scope audits as defined by OMB Circular A-133, as revised, and/or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer or Auditor General.

#### AUDITS

##### PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in OMB Circular A-133, as revised.

1. In the event that the recipient expends \$500,000 or more in Federal awards in its fiscal year, the recipient must have a single or program-specific audit conducted in accordance with the provisions of OMB Circular A-133, as revised. EXHIBIT 1 to this Agreement indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the Federal awards expended in its fiscal year, the recipient shall consider all sources of Federal awards, including Federal resources received from the Department of Environmental Protection. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, as revised. An audit of the recipient conducted by the Auditor General in accordance with the provisions of OMB Circular A-133, as revised, will meet the requirements of this part.
2. In connection with the audit requirements addressed in Part I, paragraph 1., the recipient shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.
3. If the recipient expends less than \$500,000 in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. In the event that the recipient expends less than \$500,000 in Federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be paid from non-Federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other than Federal entities).
4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at <http://12.46.245.173/cfda/cfda.html>.

##### PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2)(m), Florida Statutes.

1. In the event that the recipient expends a total amount of State financial assistance equal to or in excess of \$500,000 in any fiscal year of such recipient, the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, Florida Statutes; applicable rules of the Department of Financial Services; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit

organizations), Rules of the Auditor General. EXHIBIT 1 to this Agreement indicates State financial assistance awarded through the Department of Environmental Protection by this Agreement. In determining the State financial assistance expended in its fiscal year, the recipient shall consider all sources of State financial assistance, including State financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(7), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.
3. If the recipient expends less than \$500,000 in State financial assistance in its fiscal year, an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than \$500,000 in State financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-State entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

### PART III: OTHER AUDIT REQUIREMENTS

*(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes.
